

Fairland Estates Civic Association Meeting -- 10/14/14 Meeting Minutes

23 in attendance

1. Adriano Maschioro is our new neighbor on Creekside Drive. He owns a landscaping business and invited anyone in the neighborhood to contact him for an estimate on any landscaping work they need done. www.malandscapinganddesign.com or call 1-877-451-0112
2. The Picnic Committee members reported that we had a very successfully (even if a bit rainy) picnic in August.
3. New shorter URL for the FECA website: www.feca.us.com
4. Remember to dial 311 for any local complaints regarding roads, signage, utilities, etc.
5. A discussion was started regarding poor quality of our water coming into our home from WSSC. One of our neighbors, in the adjacent HOA, presented pictures and back-story regarding the brown water coming out of their pipes and their efforts thus far to get WSSC to remediate. This neighbor asked for either FECA's official help or even just from individuals in the neighborhood on how to get WSSC to fix the water problem. Several FECA neighbors in attendance confirmed that they too have a water quality issue. The visiting neighbor circulated a petition, for anyone in attendance to sign, to get WSSC to expedite the planned replacement of our neighborhood's aging pipes. Several individuals signed on the spot with the understanding that this was a petition of individuals in the community and not directly coming from FECA. The visiting neighbor stated it was their plan to go door to door with the petition to get signatures prior to the upcoming county and state elections.
6. The FECA President determined that the FECA members will discuss and vote on what official action FECA will take (if any) with regards to WSSC and the water issue in the November 12, 2014 meeting.
7. Next meeting is Wednesday, November 12th.
